

While the World Let Go

A Rocket to the Moon

I said don't go, I need you here
Just hold me close until the coast is clear
And I will fall, I'll fall so hard
In hopes I land in your arms We can watch the world go by
Falling like stars in the sky I'm never gonna let you go
Your love's gonna save my soul
And after all we've been through fire and smoke
And through it all we've kept a hold of hope
While the world let go If the moon doesn't come
And we're left without the sun
I will still hold you tight
While we wait out the night We can watch the world go by
Falling like stars in the sky I'm never gonna let you go
Your love's gonna save my soul
And after all we've been through fire and smoke
And through it all we've kept a hold of hope
While the world let go
While the world let go I swore I'd never let you end up on your own
I'll always be around to let you know I'm never gonna let you go
Your love's gonna save my soul
After all we've been through fire and smoke
And through it all we've kept a hold of hope
While the world let go
While the world let go
While the world let go I swore I'd never let you go.
