

# Unstoppable

## Motionless in White

Through all that I've sacrificed  
I'm numb but alive, so how much more do I have to be?  
No fear, I am the name that's under your breath  
White teeth in the dark, the voice in your head  
Embrace what is killing me I will justify this pain  
I will live another day  
I will fight to earn my place  
I will be unstoppable  
Straight inside my veins  
As I try to break these chains  
Only honor will remain  
We will be unstoppable Through darkness I've seen the light  
Tear down the walls and put me out of your misery  
I know that I am the lie that keeps you divine  
Sworn to the revery  
I will smash my enemies I will justify this pain  
I will live another day  
I will fight to earn my place  
I will be unstoppable  
Straight inside my veins  
As I try to break these chains  
Only honor will remain  
We will be unstoppable You wanted a war  
You got one mother fucker  
So bring the pain  
You wanted a war, you got one I will justify this pain  
I will live another day  
I will fight to earn my place  
I will be unstoppable  
Straight inside my veins  
As I try to break these chains  
Only honor will remain  
We will be unstoppable  
We will be unstoppable (oh oh oh, oh oh oh)  
We will be unstoppable
