Easy Breezy

The Comrads

I still remember the ways that you touched me
Now I know I don't mean anything to you
You're easy breezy and I'm Japaneesy
Soon you'll mean exactly nothing to me
And that means
You look stupid telling all your friends how you got the best of me
I intended to share the pleasure only
Now I look stupid, we're living in a world with a lot of pressure
It's quite unneeded to put more pressure on me
You came and went and left my house
Like a breeze just passing by
Hello, goodbye, you left a note saying "'It was nice stopping by"
I should've never ever let you inside
I still remember the ways that you touched me
Now I know I don't mean anything to you
You're easy breezy and I'm Japaneesy
Soon you'll mean exactly nothing to me
Does that mean anything to you?
Easy breezy, do you whistle to hide that you're feeling lonely?
How do I breathe with all this pressure on me?
Easy breezy, when you wrestle you know that you hurt somebody
How do I breathe with all this pressure on me?
You came and went and left my house
Like a breeze just passing by
Konnichiwa sayonara, it was nice of you to stop by
Would it amuse you if I told you that I?

I still remember the ways that you touched me
Now I know I don't mean anything to you
You're easy breezy and I'm Japaneesy
Soon you'll mean exactly nothing to me
Does that mean anything to you?
I still remember the ways that you touched me
Now I know I don't mean anything to you
You're easy breezy and I'm Japaneesy
Soon you'll mean exactly nothing to me
Does that mean anything to you?
You're easy breezy and I'm Japaneesy

You're easy breezy and I'm Japaneesy

She's got a new microphone
She's got a new microphone
She's got a new microphone
You're easy breezy and I'm Japaneesy
She's got a new microphone
Doesn't need you anymore
Yes, she doesn't need you anymore
She's got a new microphone
She's got a new microphone
She's got a new microphone
She doesn't need you anymore
She doesn't need you anymore
She's got a new microphone
You're easy breezy and I'm Japaneesy
