Remember Me

Jacob Latimore

Trynna hide emotions, ya pride won't let it show
And find myself wanting you more
You're so afraid of fallin', back to where we started
Can't deny what you were before
So, you ain't goin' nowhere
Used to be us, young in love
Let's take it back right now
You ain't goin' nowhere
You're still mine
Ya eyes don't lie
Let's take it back, remember lovin' me
I still can light your fire
Remember lovin' me
I still can light your fire
Remember lovin' me
I know when we touch, you'll fall back in love
Girl, we know what it was
Remember lovin' me,
I know when we touch, you'll fall back in love
Girl, there's no better usCan't predict the moment, I don't know where we're goin'
But here right now is where you should be
So, why you hesitating? We both know how it ends
And I don't have to convince you to leave
So, you ain't goin' nowhere
Used to be us, young in love
Let's take it back right now
You ain't goin' nowhere
You're still mine
Ya eyes don't lie
Let's take it back, remember lovin' me
I still can light your fire
Remember lovin' me
I still can light your fire
Remember lovin' me
I know when we touch, you'll fall back in love
Girl, we know what it was
Remember lovin' me,
I know when we touch, you'll fall back in love
Girl, there's no better usAnd baby, I'm up now

Remember loving me
And baby, I'm up now
Remember lovin' me
