

No Happy Ending Tune

Wheatus

When the summer comes, we'll get on our aeroplanes
And go back to where we came from
(Summertime)
It's a surprise but I think I'll survive When this is done, we can have our loved one's back
Just in time for the new hijack
(Blue and black)
It's a fact, it's the act we act inside Oh God, how good would it be
If you trusted me and I believed in you?
Oh God, what good would it do?
No happy ending tune When the summer comes we can burn these penguin clothes
And go home where no one knows us
(Sunny side)
It's a sign, shiny like a dime When this is done, we can die a thousand times
All alone and unrecognized
(Summertime)
Never mind, oh, I hate to say goodbye But oh God, how good would it be
If you trusted me and I believed in you?
Oh God, what good would it do
If I believed in you, if I believed in you?
But this is a no happy ending tune Oh God, how good would it be
If you trusted me and I believed in you?
Oh God, what good could we do
If you trusted me and I believed in you? Oh God, what good would it do
If I believed in you, if I believed in you?
If I believed in you, if I believed in you
If I believed in you, if I believed in you
But this is a no happy ending tune
