

# Control

## Metro Station

Another cigarette, and I'm so bored  
Your words aren't making sense  
And I was taken but you were waiting  
One more drink and I'm convinced Not one more sound  
Let your hair down  
Take the low road  
No one will know Whoa, I feel just like we're taking control  
Of the night, of the night, yeah-yeah  
Whoa, I feel just like we're losing control  
But if you let go, I'll let go tonight Another minute lived  
If you take me I'll take what you will give  
I was late and she kept waiting  
But I hope she knows where I've been Not one more sound  
Let your hair down  
Take the low road  
No one will know Whoa, I feel just like we're taking control  
Of the night, of the night, yeah-yeah  
Whoa, I feel just like we're losing control  
But if you let go, I'll let go tonight I'm coming down, bring me up  
Take it off, let's just touch  
I'm coming down, bring me up  
Take it off, let's just touch I'm coming down, bring me up  
Take it off, let's just touch  
I'm coming down, bring me up  
Take it off, let's just touch Whoa, I feel just like we're taking control  
Of the night, of the night, yeah-yeah  
Whoa, I feel just like we're losing control  
But if you let go, I'll let go tonight
