## **Control**

## **Metro Station**

Another cigarette, and I'm so bored Your words aren't making sense And I was taken but you were waiting One more drink and I'm convincedNot one more sound Let your hair down Take the low road No one will knowWhoa, I feel just like we're taking control Of the night, of the night, yeah-yeah Whoa, I feel just like we're losing control But if you let go, I'll let go tonightAnother minute lived If you take me I'll take what you will give I was late and she kept waiting But I hope she knows where I've beenNot one more sound Let your hair down Take the low road No one will knowWhoa, I feel just like we're taking control Of the night, of the night, yeah-yeah Whoa, I feel just like we're losing control But if you let go, I'll let go tonightI'm coming down, bring me up Take it off, let's just touch I'm coming down, bring me up Take it off, let's just touchI'm coming down, bring me up Take it off, let's just touch I'm coming down, bring me up Take it off, let's just touchWhoa, I feel just like we're taking control Of the night, of the night, yeah-yeah Whoa, I feel just like we're losing control
