

Never Looking Back

[Matt Costa](#)

Advisory - the following lyrics contain explicit language:

Burnt trees on a snowy pass
All my friends are far behind
I'm stuck with you tonight
But I'd be better alone So come on wheels take me far away
Where I don't have debts to pay
I can't count on yesterday
To find the way home I know it happens all the time
But they don't have my back
So I'm never looking back Plumes of smoke rise high above
Burned bridges lost in luck
I guess it's all because
They're found on the fault On sandy ground
Foundations can't be found
And all the stones of change
Were thrown in my face I know it happens all the time
I heard them talk behind my back
So I'm never looking back I know it happens all the time
I heard them talk behind my back
So I'm never looking back
Looking back
