

# Magic Mirror

[Tiffany Thornton](#)

Watching the night set in,  
Tomorrow's a brand new day again,  
Full of twists and turns you'll never know...  
and great surprises.Nothing is black and white,  
with so many colors in this life,  
Take the brush and paint what's in your dreams  
A perfect picture.Looking at my reflection,  
For the answer to the question.  
Make a wish tonight,  
And see the twinkle in the rain.There's magic if you close your eyes,  
and all you have to do is...Believe the impossible,  
and wish upon my magic mirror,  
Believe in miracles,  
Cause dreamers always dream,  
Forever, Forever.Possibilities in your hands,  
Adventures waiting in far off lands.  
Full of twists and turns you'll never know...  
and second chances.So catch a falling star,  
And keep it close,  
Hold it in your heart,  
And it will shine a light in the dark,  
and make things clearer.I'm looking at my reflection,  
For the answer to the question.Make a wish tonight,  
And see the twinkle in the rain.  
There's magic if you close your eyes,  
and all you have to do is,...Believe the impossible,  
and wish upon my magic mirror,  
Believe in Miracles,  
Cause dreamers always dream,  
Forever, Forever.Take a chance cause you can and you will see...,  
all the possibilities,  
If you try you will find,  
All the treasures are hidden underneath your feet.Make a wish tonight,  
And see the twinkle in the rain.  
There's magic if you close your eyes,  
and all you have to do is...Believe the impossible,  
and wish upon my magic mirror,  
Believe in Miracles,  
Cause dreamers always dream,

Forever, Forever.
