

# Just Want You

Elise Estrada

Just wanna get next to your body  
I got something free, how about it?  
Just wanna get next to your body  
Oh baby, can't live without itA million roses came today  
Woke me up at seven A  
Don't you know the sun's away  
Did you know, don't want it  
I got the keys, no thank you please  
Another something I don't need  
You know I'm not about to cheat  
Did you know, don't want it  
Baby, I got everything I need  
But I don't have you here with meI don't want your do re mi  
Don't need more diamond rings  
If ya gonna spend, spend time on me  
I don't want your crack ca-ching  
My love don't cost a thing  
If you gonna spend, spend time on meI just want you, baby just you  
I just want you, no money honey  
Just want you, baby just you  
I just want youGot your message, got the phone  
Don't you know I got my own  
Just a sub for you to home  
Did you know, don't want it  
And yes, I saw that sexy dress  
But no, I'm not impressed  
I'll just put it with the rest  
Did you know, don't want it  
Baby, I got everything I need  
But I don't have you here with meI don't want your do re mi  
Don't need more diamond rings  
If ya gonna spend, spend time on me  
I don't want your crack ca-ching  
My love don't cost a thing  
If you gonna spend, spend time on meJust wanna get next to your body  
I got something free, how about it?  
Just wanna get next to your body  
Oh baby, can't live without it  
Baby, I got everything I need

But I don't have you here with me[Jahfus:]

Yes girl, I need your body

You and I can find somebody

I'll find my shows and parties

I'm gonna, gonna do my shorty

Give it to my baby

Pull up in a brand new mercedes

There goes my baby, everything nice

And new to me, look don't be shady

Picture you and my lady

Leave on a Sunday, come back Monday

How you doing, she say nothing

To the Bahamas, me in public

Be there for you in a hurry[Elise:]

I just want you, baby just you

I just want you, no money honey

Just want you, baby just you

I just want youI don't want your do re mi

Don't need more diamond rings

If ya gonna spend, spend time on me

I don't want your crack ca-ching

My love don't cost a thing

If you gonna spend, spend time on me

I just want you
