

Keep It Loose, Keep It Tight

Amos Lee

Well I walked over the bridge
Into the city where I live
And I saw my old landlord
Well we both said, "Hello"
There was no where else to go
'Cause his rent I couldnt afford Well relationships change
Though I think its kind of strange
How money makes a man grow
Ah, some people they claim
If you get enough fame
You live over the rainbow, over the rainbow But the people on the street
Out on buses or on feet
We all got the same blood flow
Oh in society every dollar got a deed
We all need a place that we can go
And feel over the rainbow Sometimes we forget what we got
Who we are or who we are not
I think we got a chance to make it right
Keep it loose, keep it tight, keep it tight Im in love with a girl whos in love with the world
Though I cant help but follow
Though I know someday she is bound to go away
And stay over the rainbow
Got to learn how to let her go over the rainbow But sometimes we forget who we got
Who they are or who they are not
There is so much more in love than black and white
Keep it loose child, you gotta keep tight
Keep it loose, keep it tight, keep it tight
Keep it tight, yeah
