

Long Slow Goodbye

Queens Of The Stone Age

Where have you gone again my sweet?
Everybody wants to know
Where have you gone again my sweet?
Everybody wants to know Where you gone?
Where you gone? I'm just a ghost, I'm on your street
Waitin', when you comin' home?
I'm just a ghost, I'm on your street
Waitin', when you comin' home? Gone so long
Where you gone? On a long slow goodbye?
On a long slow goodbye In every voice, I hear you speak
Waitin' by the telephone
I close my eyes, I just can't sleep
Roll and tumble all night long All night long
Where you gone? On a long slow goodbye?
On a long slow goodbye
On a long slow goodbye?
On a long slow goodbye I close my eyes, I just can't sleep
Where have you gone again my sweet? On a long slow goodbye?
On a long slow goodbye
On a long slow goodbye?
On a long slow goodbye Goodbye
Goodbye
Goodbye
