Wonder Sleeps Here

Twin Atlantic

I'm watching you walking away
From what you chose
Like water on glass, yeah you distort my view
And the sun will catch our hope
And I want to ask the questionCan we go home tonight?
Can we go home?
I'll take you thereLine after line, stroke after stroke
Here comes the part
Where I start to choke on words that I pre-wrote
Yeah, on my words
And the sun will catch our hope
And I want to ask the questionCan we go home tonight?
Can we go home tonight?
I'll take you thereBy hand on my own watch me do this
(I'll take you there)
On foot and I'll set the tone
(I'll take you there)
Watch us do this
(I'll take you there)Can we go home tonight?
Can we go home tonight?
And I will take you there
I will take you there
Can we go home tonight?
I'll take you there
