

# Wonder Sleeps Here

## Twin Atlantic

I'm watching you walking away  
From what you chose  
Like water on glass, yeah you distort my view  
And the sun will catch our hope  
And I want to ask the question Can we go home tonight?  
Can we go home?  
I'll take you there Line after line, stroke after stroke  
Here comes the part  
Where I start to choke on words that I pre-wrote  
Yeah, on my words  
And the sun will catch our hope  
And I want to ask the question Can we go home tonight?  
Can we go home tonight?  
I'll take you there By hand on my own watch me do this  
(I'll take you there)  
On foot and I'll set the tone  
(I'll take you there)  
Watch us do this  
(I'll take you there) Can we go home tonight?  
Can we go home tonight?  
And I will take you there  
I will take you there  
Can we go home tonight?  
I'll take you there
