Don't Blame Me

Jode Gannon

If I held things back from you it was for the best
You left me hanging there clinging for the rest
And if I said i'm sorry I was only telling a lie
No need to wonder, ill just tell you the reason why

I can see your soul swallow me whilst I sleep
I can feel your breath oh so close to me
Oh no please dont haunt me in my dreams
i'm sorry I ignored all your screams... for help!

Chorus

Dont blame me when you came crawling
You came crawling, you came crawling
Dont blame me when you were falling
You were falling, You were falling
Dont blame me, you kept calling
You kept calling, you kept calling
Dont blame me, cause you were boring
You were boring, you were boring
Dont blame me.... You made your own choice

You wanted money, well you blead me to the bone
I gave you everything, but I had to let you go
Dont bring your worries on me, just leave me alone
I hope you understand this is the path I have to go

The way you act, I can never be civil with you
Dont keep contacting me, their is nothing you can do
You had your chance and you let it run away
Save your efforts for another sad day

Chorus

Bridge

Dont let your heart be cold like hers
She'll get what she deserves
Dont worry it's all gonna be ok

Just let the wind take it all away
