Alpha Female (Original Mix)

Dot Allison

She's lost
Words mean nothing
She's lostShe's lost
Words mean nothing
She's lostShe didn't want to conquer you
Another misconception
It tasted strange
She can't explain
But it's all forgotten nowHer fingerprints
Are on your hands
That's all she's left for you
You just untangled all her words
They're inexpensive nowShe's lost
Words mean nothing
She's lostShe's lost
Words mean nothing
She's lostYou walked the world
It's almost over now
Your satellite escape each dayYou've got an alpha female muse
A little introspection
She isn't there to be misused
The shallowest reflectionShe's lost
Words mean nothing
She's lostShe's lost
Words mean nothing
She's lostShe's lost
Words mean nothing
She's lostShe's lost
Words mean nothing
She's lost
