Miracle Cure

Sea Wolf

You came from nowhere like a miracle cure
And you took me out to the glittering streets
Told me to forget myself alive
Cause there's life out there
And we're you and free
There's music and laughter
And it's time to forgiveIf I, if I can surround you in a beautiful sound, I will
If I, if I can repay you for coming to save me, I will, I willWe all went outside
Took the train downtown
And the passengers we so alive
So colorful and loud, so full of pride
Though out languages were different we were both the same
We just wanted to live before we dieIf I, If I can surrounding you in beautiful sounds, I will
If I, if I can repay you to save me, I will
If I, if I can be who you want me to be, I will
If I, If I can surround you, I will
I will, I will, I willYou came from nowhere
My own miracle cure
When we came running out to the glittering streets
With faded yellow petals beneath our feet and people celebrated in the
Midnight flow
Well, I knew what I wanted
And I wanted to knowIf I, If I can surrounding you in beautiful sounds, I will
If I, if I can repay you to save me, I will
If I, if I can be who you want me to be, I will
If I, If I can surround you in beautiful sounds I will I will I will
Oh my love, true and pure lift me up like a miracle cure
