

# Close To Me

Benny Benassi

I miss you  
I want you  
I need you  
To hold me  
I can't take  
The distance  
Come closer  
No resistance

I need you now, baby listen

You're the puzzle piece that I'm missing  
I would do things that have never been done  
To get you close to me Why can't you see?

Why can't you see

That you should be close to me? Close to me

You should be close to me

I would do things that have never been done

To get you close to me You make me

So naked

My heart pumps

Anticipating

I fall from

The sky down

If you don't come right now Close to me

You should be close to me

I would do things that have never been done

To get you close to me I need you now, baby listen

You're the puzzle piece that I'm missing

I would do things that have never been done

To get you close to me Close to me

You should be close to me

I would do things that have never been done

To get you

To get you

Close to me
