

# Missin U

## Usher

[Usher]

Somebody that's got confidence

You know it's in her attitude

The way she walks, nice legs

She's gotta be beautiful, nice thin waist

Fat ass, ooh

And those soft little lips

Little lips, little lips, little lips Little lips, little lips, little lips

Little lips, little lips, little lips, little lips

I wonder if your lips are as soft as I imagine them to be

Little lips, little lips, little lips, little lips

Little lips, little lips, little lips, little lips

Little lips, little lips, little lips, little lips

Little lips, little lips, little lips, little lips

Little lips, little lips, little lips, little lips

The crazy thing is you're the only girl I love

Little lips, little lips, little lips I reminisce of all the things that don't exist yet

Like the breakfast on Sunday mornings after drunk sex

Or when you're out with your girls and you send me a drunk text

Saying "baby are you far, won't you to come closer to my heart"

I miss you girl, wherever you are Oh, I miss you, already

And I just wanna kiss you, already

So come on, come on, come on

If you are ready, hurry up to the phone

You don't know I miss you, already

Girl I miss you, yeah Little lips, little lips, little lips, little lips

Little lips, little lips, little lips, little lips

Little lips, little lips, little lips, little lips

Little lips, little lips, little lips, little lips

Little lips, little lips, little lips, little lips

Little lips, little lips, little lips, little lips

Little lips, little lips, little lips, little lips

Little lips, little lips, little lips, little lips Pillow cases covered in traces of your makeup

And, if I ever cheat, gonna taste your flavor, real

I dreamt about you last night, I ain't wanna wake up

Even though I can't see you so far

Just like the tint of my car

I miss you girl, wherever you are Oh, I miss you, already

And I just wanna kiss you, already

So come on, come on, come on  
If you are ready, hurry up to the home  
You don't know I miss you I like the way your frame is  
I wonder if you're sex is as good as I assume it's gon'  
The crazy thing is you already knew what it was Take this, take that girl, but don't take time  
You take my heart, baby come claim mine  
Won't wait forever but I wait for you  
Don't take to long girl cause I'm missin' u Oh, I'm missing you, already  
And I just wanna kiss you, already  
So come on, come on, come on  
If you are ready, hurry up to the phone  
You don't know I miss you, already  
Girl I miss you, yeah
