How To Find True Love And Happiness In The Present

The Stranglers

We're not here to destroy
We are here to employ

We have come to make you function
So we can eat you at our functions

We are the meninblack
We are the meninblack
We are the meninblack

Information can destroy
So we'll treat you just like toys

Healthy livestock so we can eat
Human flesh is porky meat hee
Hee hee

We are the meninblack
We are the meninblack
We are the meninblack
We don't approve of artificial food
We grow you for our own good

First we gave you the wheel
Then we made you live to kill

So the best stock will survive
We eat you all alive

We are the meninblack
We are the meninblack
We are the meninblack

We are the meninblack
We are the meninblack
We are the meninblack
We are the meninblack

We are the meninblack
We are the meninblack

We are the meninblack
