

Rescue my heart

Liz Longley

Lie and tell myself I can
make it on my own
Making it alone is lonely
Twisting and I'm turning
oh I'm crashing and I'm burning
So reach out your hand to me Come down
rescue my heart
I'll drown
without you Come down
and rescue my heart
I'm deep underground
I can't dig my way out
so come down Rescue my heart I can't breathe any faster
all the air I wanna capture
It's heavy and it hurts my head
If you found me, would you save me?
If you touched me, would it break me?
Will I come back from this? Come down
rescue my heart
I'll drown
without you Come down
and rescue my heart
I'm deep underground
I can't dig my way out
so come down Rescue my heart
Rescue my heart
Rescue my heart Who will rescue my heart?
Who will rescue my heart?
Who will rescue my heart?
Who? Come down
rescue my heart
I'll drown
without you Come down
please rescue my heart
I'll drown
without you
