

Kiss Me Once

Kylie Minogue

We'll win a war
We'll be ?
Do you feel me There's a look in your eyes
Something is up tonight
I can feel it The air is thin
We're scent of it
And the dam won't break
One tear falls, tension cracks the walls
Then relief comes Me and you
Baby we made it through
Me and you
We've got some loving to do
Kiss me once
And you will watch me fall
Kiss me twice
And I will give you my all Look, we're still up
Like twosome should do
Do you feel me
Come out for air
It's dark in there
Do you love me Am I broke up
It's to my rocks
Tell the face babe
One tear falls falls, tension cracks the walls
Then relief comes Me and you
Baby we made it through
Me and you
We've got some loving to do
Kiss me once
And you will watch me fall
Kiss me twice
And I will give you my all Me and you
Baby we made it through
Me and you
We've got some loving to do
Kiss me once
And you will watch me fall
Kiss me twice
And I will give you my all
