

Let's Have Peace On Earth Tonight

Mimes On Rollercoasters

They travelled by night and followed the stars
Coming from far-away lands
Bringing their gifts, bestowed unto him
A child lies sleeping in the hay

Let there be peace on this Earth tonight
Let all our children find love in our time

Days turned to years, he became a fine man
Someone many looked up to
They came from afar to meet the man
who suffered for all of mankind

Let there be peace on this Earth tonight
Let all our children find love in our time

Many have died defending his name
Men killing men, who's to blame?
So for this day, let's all unite
Let's have peace on Earth tonight.

Let there be peace on this Earth tonight
Let all our children find love in our time
Let there be peace on this Earth tonight
Let all our children find love in our time
