

Where Are You?

Bee Gees

Where are you?
(Where are you?)
Night is day and day is night
Where are you?
(Where are you?)
I need you, girl, you're not in sight
Our love would grow but you leave and I know That you don't love me
(Where are you?)
I need you girl, you're not in sight
I told you
(I told you)
I was never coming back, ah You told me
(You told me)
You would give my love the sack, ah
Now as I fly, you won't tell me goodbye 'Cause you don't love me
(Where are you?)
Now you give my love the sack, ah
Now as my heart lies in pieces of eight
You were a part of my love but too late I love you
(I love you)
This I think that you should know
I'll be blue
(I'll be blue)
You are still 'cause I must go I'd like to stay but I know you won't play
And see things my way
(Where are you?)
You are still 'cause I must go
You are still 'cause I must go
I must go
(Where are you?)
