

St. Clarity

The Paper Kites

Well, it's how I see you
When I see you from below
And I feel no other
Sights or sounds of things I know Only a glow,
Only a glow So converse me without
Steady tone of where you've been
But I know that you're a
Timid love beneath the skin Breaking you in,
Breaking you in I don't know you,
But I know what you do
I don't know you,
But I know what you do And I know you carry
A sense of weariness, I see
You're the one I'm wanting,
With the plainest clarity Turning in me,
Yearning in me I don't know you,
But I know what you do
I don't know you,
But I know what you do You'll never be sincerely right
If I stand here with you And it's how I see you
When I see you from below
When I see you from below
When I see you from below
When I see you from below
