

# Your Place Or Mine

## Eli Young Band

I could change my number, I could turn it off  
I could hit decline, but it wouldn't stop  
Before I even answer, yeah I already know  
What you'll be sayin' and where this conversation's gonna go

It's another 2 A.M., call me up, drunk again  
Cellphone lyin' on the nightstand turns into a buzz in my right hand  
Sure baby, I'll pick you up  
It's what I do, I miss your touch  
I haven't moved on and you haven't moved on  
It's way too soon to be alone  
Here we go again, crossin' that line  
Where you wanna go? Your place or mine?

Givin' in to you ain't such a crime  
What's the harm of stealin' one more night?  
We probably whisper, "Baby, I love you"  
But you'll leave in the morning  
Mean nothin' more to you

Before I even answer, yeah I already know  
What you'll be sayin' and where this conversation's gonna go
