

August Is Over

We The Kings

Say a prayer, the summer nights are dead
The fall is coming
We were careless hearts
Who got caught up in this You were shy to the night you drove me wild
And you crashed into me and I won't lie
I wish it lasted a lifetime Please stay
Won't you stay tonight? Breathe in deep and say goodbye
The saddest song I'll ever write
For anyone, anytime Breathe in deep before I say
I can feel us slip away
You're almost gone, you're good as gone
August is over Now we wait 'cause August had to end
All our bags are packed
Just two broken hearts
That got caught up in this I deny that tomorrow you'll be gone
And so far from me
It's something strange
Never love the same way Please stay
Won't you stay tonight? Breathe in deep and say goodbye
The saddest song I'll ever write
For anyone, anytime Breathe in deep before I say
I can feel us slip away
You're almost gone, you're good as gone We can try to drown it out
But it never stops breathing
We can take it all in
But it never slows down
We've come down from that cloud Well, say what you gotta say
Please say what you gotta say
Whoa oh oh
Whoa oh oh Breathe in deep and say goodbye
The saddest song I'll ever write
For anyone, anytime Breathe in deep before I say
I can feel us slip away
You're almost gone, you're good as gone
August is over We're not the reason
August is over
