

# Little Lost Girls

## The Runaways

I can't stand it, I got to break loose somehow  
When this boat starts rockin' and people keep knockin' on my door I wanna run, run, run, run away from here  
I wanna run, run, run, run away from here  
I wanna run away from here Little lost girls  
Little lost girls in the night  
Little lost girls  
Little lost girls in the night You make my heart sting, burning like it's on fire  
You've got me wanting more from you in every way I wanna run, run, run, run away from here  
I wanna run, run, run, run away from here  
I wanna run away from here Little lost girls  
Little lost girls in the night  
Little lost girls  
Little lost girls in the night When I see you each day, I just wanna run and hide  
But you follow me round like a shadow upon the ground I wanna run, run, run, run away from here  
I wanna run, run, run, run away from here  
I wanna run away from here Little lost girls  
Little lost girls in the night  
Little lost girls  
Little lost girls in the night
