4th Dimension

Funker Vogt

I am floating in the universe
like on a silent ocean
my mind is opened wide
to understand our lifeI see the secrets of mankind
understand their destination
everybody goes his way
fullfills his duty in our worldRefrain:
I am drifting far away
to an unknown peaceful place
this is the place where I will pray
so far away in outer spaceI am still moving further out
where men's eyes never will reach
here you will feel
freedom peace and joy
