

Seeing Red

Eyeshine

Grey skies growing
Shadows closing in
It's the coldest year it's been

I gave my best for nothing (X2)
Shake it off
Nothing's lost

Enough, Enough, Enough
Get up, get up, get up
Follow me until the end

(Ahh)
Fight Beside me
(Ahh)
Hope for glory
This is where we started
And this is where we'll end

All my life
I've been right here waiting for you
All my life
It's the same, it's the same
Inside I can feel it turn

Seeing red
In my head

All my life
I've been right here waiting for you

(Ahh)
Fight Beside me
(Ahh)
Hope for glory
This is where we started
And this is where we'll end

Seeing red
In my head
