

# Loved

## Roxanna

How does it feel to be loved  
To have everything your heart wants  
To touch the stars and fly high away  
In heaven's cry How does it feel to please  
To be with the one made for you  
And to hear every word you dream of  
Whispered in your ear just like a summer breeze  
Love, comes into a heart and takes your breath away  
Just love  
Love, Something in a smile or through a tear with a word  
Speaks love  
Love, can make you feel complete  
That is all you ever need  
When you are so far away  
Everything feels so unreal  
And the beat of my heart cries for you  
To see you again All that I've ever wished for  
Is to love and be loved in returned  
And the way that we are is so much more  
A reason to live for eternity
