

Martyr Me

The Get Up Kids

Just to get by try to stay high
It's a good life end of discussion
And hours like sand holes in my hand
I'm a good soul, martyr me And I'm wasting my life it's passing me by
It's a good fight throw in the towel
And the hours I've spent aren't enough to pay rent
I'm just sinking water deep But if all I have is defeat Tonight if you're awake at all
Tonight if you're awake
Tonight if you're awake at all
Tonight if you're awake Case of my crime a lack of my time
It's a roadblock need a catharsis
The patience is spent a virtue
I sent to the basement far from me The less that I spend on the mess that I'm in
Could be used towards something of value
The time on my side isn't anything
I've ever needed can't you see? That all I have is defeat Tonight if you're awake at all
Tonight if you're awake
Tonight if you're awake at all
Tonight if you're awake Every unsuspecting scene
When we're supposed to make believe
That we're not tearing at the seams
We hang on, we hang on, we hang on Tonight if you're awake at all
Tonight if you're awake
Tonight if you're awake at all
Tonight if you're awake Tonight if you're awake at all
Tonight if you're awake
