The Thing That Should Not Let It Be

Beatallica

When I find myself in times of trouble
Hybrid children come to me
Pray for father roaming, roaming freeAnd in my hour of darkness
It is standing right in front of me
He is the thing that should not let it beLet it be, let it be
Hybrid children watch the sea
He is the thing that should not let it beCrawling chaos underground people
Living in the world agree
The wretch is fearless with insanityAnd though he has been sleeping
There is still a chance that he will see
That this thing should not let it beLet it be, let it be
Hybrid children watch the sea
He is the thing that should not let it beNot dead which eternal lie
With stranger eons, death may die
These are words of wisdom, let it beI wake up to the sound of Metallica
Let the metal come to me
Death to the one that will not let it beLet it be, let it be
Hybrid children watch the sea
He is the thing that should not let it be
