

# Madness of Others

## Wake Owl

I put it to the wind  
Otherwise it drives me mad  
The way we get so safe but wanna be bad  
I wonder if it's strange  
To think of where we'll be

When the world begins to feel so so free  
And I wanna find myself so free  
I guess I'll walk across the fire  
See what turns me on  
Cause your numbers really bore me  
Your slogans be wrong  
I was taken prisoner  
Before this love began  
And I tell myself it's good to feel so free  
And I wanna find myself so free
