

# Nowhere

MKTO

Breakfast in bed, bacon and eggs  
Well done, head, well done  
She keeps me fed  
Breast and some legs  
Well done, yea, well done You go to work every day and I work my X-box  
You wear yo high heels, I'm high scoring in my socks  
You learn the right time to go buy me a new watch  
You never asked for a key  
So I never had to change the locks You know what I like so give me what I want  
And girl I'll never go nowhere  
Give me love at night, love in the morning  
And girl I'll never go nowhere I know I may be askin for much  
But baby I don't really care  
I know I may be sound a bit nuts  
But girl I wouldn't go nowhere  
Nowhere (nowhere)  
Nowhere (nowhere)  
Nowhere (nowhere)  
Girl I'll never go nowhere Under the sheets, 10000 thread  
Go ahead, spending yo bread  
You can't be beat  
You're such a 10  
Bakin brownies naked You understand that I got other girls to call (you understand)  
You never trip because I let you get involved (don't trip girl)  
Take that company jet to that company island getaway (get outta here)  
Spending company money, drinkin company champagne (spend it all) You know what I like so give me what I  
want  
And girl I'll never go nowhere  
Give me love at night, love in the morning  
And girl I'll never go nowhere I know I may be askin for much  
But baby I don't really care  
I know I may be sound a bit nuts  
But girl I wouldn't go nowhere  
Nowhere (nowhere)  
Nowhere (nowhere)  
Nowhere (nowhere)  
Girl I'll never go nowhere And you know what I want (you know)  
You know what I like (what I like)  
I will never stray, at the end of the day you gon do me right Malcolm in the middle I'm yo lay

Throw a party for me every day like soiree  
Charging up the cars like a bull say ole  
I pay (no way), she pay (okay) You know what I like so give me what I want  
And girl I'll never go nowhere  
Give me love at night, love in the morning  
And girl I'll never go nowhere I know I may be askin for much  
But baby I don't really care  
I know I may be sound a bit nuts  
But girl I wouldn't go nowhere  
Nowhere (nowhere)  
Nowhere (nowhere)  
Nowhere (nowhere)  
Girl I'll never go nowhere  
Nowhere (nowhere)  
Nowhere (nowhere)  
Nowhere (nowhere)  
Girl I'll never go nowhere
