

# Banged and Blown Through

[Saul Williams](#)

We are broken instruments  
Burst wide open, smashed and bent Not what you'd expect  
From these city streets  
Who serves to protect  
The orchestra in me? Conductor, conductor  
I feel electricity  
Conductor, conductor  
Can you bring out the song in me? Instruments, instruments, instruments  
Banged and blown through  
Instruments, instruments, instruments  
Banged and blown through Instruments, instruments, instruments  
Banged and blown through  
Instruments, instruments  
Instruments, instruments We are broken instruments  
Burst wide open smashed and bent Not what you'd expect  
From these city streets  
Who serves to protect  
The orchestra in me? Instruments, instruments, instruments  
Banged and blown through  
Instruments, instruments, instruments  
Banged and blown through Instruments, instruments, instruments  
Banged and blown through  
Instruments, instruments, instruments, instruments Conductor, conductor  
Conductor, conductor  
Can you bring out the song in me?
