My Song

Glass Tiger

Hey, hey, heyI wanna sing my song
And take me home where I come from
I wanna sing my song
For you, for everyoneOh, I feel the fire burning
From deep inside of me
But when my heart is longing
Fear disappearsAnd so I wait in silence
Wait for a star to fall
I'll fly with the angels
As they carry me homeI wanna sing my song
And take me home where I come from
I wanna sing my song
For you, for everyoneOh, I've left it all behind me
To travel the distant road
So far from my homeland
So far from my shoreI wanna sing my song
And take me home where I come from
I wanna sing my song
For you, for everyoneI wanna sing my song
And take me home where I come from
I wanna sing my song
For you, for everyoneSing my song
Take me home where I come from
I wanna sing my song
For you, for everyone
