

Money Tree

[MxPx](#)

Four more years ain't right for me
I don't think so
Won't let them teach me how to be
A money tree That's what you are, that's all you'll ever be
(Never want to be your money tree)
A money tree
(Never want to be your money tree) They've got you planted in the ground
You don't know it
They make you put your money down
And they take it That's what you are, that's all you'll ever be
(Never want to be your money tree)
A money tree
(Never want to be your money tree) Never want to be your money tree
Never want to be your money tree
Never want to be your money tree
Never want to be your money tree That's what you are, that's all you'll ever be
(Never want to be your money tree)
A money tree
(Never want to be your money tree) Money tree
(Never want to be your money tree)
A money tree
(Never want to be your money tree)
