

The Closing

Silverchair

Welcome to the closing
Not for love, what for?
It's easy to be taken
But to say Come again, leave again
Waste of time, come again I'm all alone while you're having fun
You have faith while I feel none
Sleep till late to waste half the day
But I'm happy to live this way And I know that you can't see my pain
But you know that I can see your pain Come again, leave again
Waste of time, come again I'm all alone while you're having fun
You have faith while I feel none
Sleep till late to waste half the day
But I'm happy to live this way Me and shame are the same
Me and shame take the blame
Me and pain are the same
Me and shame take the blame Come again, leave again
Waste of time, come again I'm all alone while you're having fun
You have faith while I feel none
Sleep till late to waste half the day
But I'm happy to live this way Welcome to the closing
