Outrageous

Sun Red Sun

She's outrageous, scandalous
The way she rocks is too much
And she's fire and rain, She blows your brains
The way she works that bodyAnd she'll tease ya and she'll please ya
She'll make you feel like you're king of the world
She's so funny takes your money
Ah! But that's just what she doesAnd it's all night baby, And it's alright babyShe's outrageous, scandalous
The way she rocks is too much
And she's fire and rain, She blows your brains
The way she works that bodyThere's no weakness to her sweetness
She's as nasty as you wanna be
Can't deny her your desire
She'll love you good and set you freeAnd it's all night baby, And it's alright babyShe's outrageous, scandalous
The way she rocks is too much
And she's fire and rain, She blows your brains
The way she works that bodyJust you and me baby, You're driving me crazy
I'll spend a little more money, On you and me honey
