Strange Relationship

Darren Hayes

Do you love me?
Or am I just another trip
In this strange relationship?
You push and pull me yeah
And I'm about to lose my mind
Is this just a waste of time?
Keep actin' like you own me
I keep runnin', watch me walkin' out that door
I hear you behind me
Gimme that strange relationship
Never felt pleasure and pain like this
Somethin' so right but it feels so terribly wrong
I keep holding on
Gimme that strange relationship
One of us gotta let go of this
I keep pushin' and you keep holdin' on
I'm already gone
Do you love me, yeah?
We break up and back together
And I swore to myself never
Oh how you do me yeah
You strip me of my honor
And I don't ever think I'm gonna
Break free of these mind games
All I'm tryin' to do is modify my plan
'Cause I can't contain you
Gimme that strange relationship
Never felt pleasure and pain like this
Somethin' so right but it feels so terribly wrong
I keep holdin' on
Gimme that strange relationship
One of us gotta let go of this
I keep pushin' and you keep holdin' on
I'm already gone
You keep actin' like you own me
I can't control me
You said, "You never really wanted me back"
Well maybe if that's a fact
May I suggest

A brand new plan of attack
And in the fizzle that you're hard to crack
You're way off track
I want you back, I want you gone
Maybe I'm sick of holdin' on
Do you love me, yeah?
Or am I just another trip
In this strange relationship?
Gimme that strange relationship
Never felt pleasure and pain like this
Something so right but it feels so terribly wrong
I keep holdin' on
Gimme that strange relationship
One of us gotta let go of this
I keep pushin' and you keep holdin' on
I'm already gone
Gimme that strange relationship
Never felt pleasure and pain like this
Something so right but it feels so terribly wrong
I keep holdin' on
Gimme that strange relationship
One of us gotta let go of this
I keep pushin' and you keep holdin' on
I'm already gone
Gimme that strange relationship
Never felt pleasure and pain like this
Something so right but it feels so terribly wrong
I keep holdin' on
Gimme that strange relationship
One of us gotta let go of this
I keep pushin' and you keep holdin' on
I'm already gone, I'm already gone, I'm gone
