

# The Glorious Ones

[Tree63](#)

When you hear the signal, it will be Tree63, exactly  
I am someone who got up again  
I am someone unshakable  
I have seen the earth spinning 'round  
And now I understand  
They used to keep you on the outside  
Now, you're the only survivor  
You have spoken with the angels  
And your face still shines just like mine  
We're the glorious ones, the glorious ones  
Forever in the sun, we're the glorious ones  
And tonight we are the strangers  
In the darkness underground  
We have eternal things in our hands  
And tomorrow we rise, so wise  
We're the glorious ones, the glorious ones  
Forever in the sun, we're the glorious ones  
We're the glorious ones, the glorious ones  
Forever in the sun, we're the glorious ones  
We're the glorious ones, the glorious ones  
Forever in the sun, we're the glorious ones
