

Failure

Orange 9mm

You never knew cuz I swear you never tried
Declared your pain dug a hole for you to hide so
So was it good for you?
Now you sweat or is it tears
Burn a hole in you for years
Defend the lie can you look into your eyes so
So was it good for you? Don't be no failure
Why you got to play up
All the times that it went wrong
Hey, shit goes bad
You act like it never has
You're such a failure
Why you got to play up
Hey, shit goes bad
You act like it never has I bet a dime that you never realize
There went your life now you want to be suprised so
So does it get to you?
So now you're all alone playing tricks on your mind
You'd be better off just committing suicide so
So does it get to you?
