I'm Saved

Shower Power

When I wander from God way and in sin I find myself
Loving Shepard gently calls me come my child oh come to me
Omnipotent truest friend I am ever in your care storms will rage and tempest blow,in your presence I am safe

In the darkest of my time when my ship sinking fast I find calm for assurance you have always been my help

When in glory he'll appear claiming mortal righteousness With that saints I shall proclaim it by his grace I have been saved
