Acid In My Heart

The Sleepy Jackson

It's true, I never had no fun with you
Now, there's acid in my heart
It's time to get you off my mind
'Cause there's acid in my heartBut I need you
And I need youI know you, I know you get quiet
'Cause you need me now
I need you, you know I'm getting tired
'Cause I need you nowWould you tell this rhythm the truth?I need you
And I need you
I need you
And I need youIt's true, I never had no son with you
Now there's acid in my heart
And it's fine to get you off my mind
'Cause there's acid in my heartAnd I need you
And I need you
And I need you
And I need you
