

Dancer

Cazadores

Dancer

Sheâ€™s got a cold and Iâ€™ve got a fever
I don't want to leave, I can't fight the feeling
The hands on the clock will not stop turning
She's not teaching, I'm not learning

She goes down down low, shakes to the song
Moves across the floor, that's her party
She goes low low down, shakes to the sound
Lift from the ground, thatâ€™s her party

Sheâ€™s got heart and Iâ€™ve got heartache
I can't find my lover, can't find my baby
Iâ€™ll tell them now weâ€™re not gonna make it
She starts a fire, I start burning

She goes down down low, shakes to the song
Moves across the floor, that's her party
She goes low low down, shakes to the sound
Lift from the ground, thatâ€™s her party

Sheâ€™s a shy shy child, a dancer in the dark
Let's go wild, that's her party
She wants more more more, lights down low
Get on the floor, that's her party

Sheâ€™s a shy shy child, a dancer in the dark
Let's go wild, that's her party
She wants more more more, lights down low
Get on the floor, that's her party
