

Time Wraps Around You

Velvet Crush

To the summer of love, from the winter of fear
Seasons change us around, the reasons not clear
So turn the page
Their innocence can't be saved
Beginning again Like the motions you make, the wave of your hand
Like the time that it takes to know that you can
Standing by
To try and make you feel alright This time wraps around you
And I'll wrap around you
You know I'll stay Through the summer of love, the winter so near
Seasons scatter good friends, and more every year
Looking back
Then you find
Learning that
It's time to leave the past far behind
You know it's alright
This time wraps around you
And I'll wrap around you
This time wraps around you
And I'll wrap around you
This time wraps around you
And I'll wrap around you
This time wraps around you
And I'll wrap around you
This time wraps around you
And I'll wrap around you
Know I'll stay
