Over My Shoulder

The Jayhawks

Left running you said you were flying
Left running you said you were cold
Any statue you can name
Like the ones that I fell for

[Chorus]
I've been looking over my shoulder
Would you love me when you're older
Would you love me when you're older
Still I know you're true

The first game is lost and you will
Another game is hide in your fear
Oh, please tell me how my heart
How can my heart belong to you

[Chorus]

Every time that you look my way
I fell so homeless
Your dreams own me

These landslides and buildings too high
That blocks the sun for everyone
Oh the law lives everywhere
And it lives without a care

[Chorus: x2]

Left running you said you were flying
Left running you said you were cold
