

# Surf Cowboy

## Throwing Muses

I saw him first on Summer Street  
He held my breath  
A famous face  
And instant death  
He saw me next  
One lonesome body  
One lonesome song  
No lonesome body  
No lonesome song  
Drink to my friend  
Drink to the sun  
To your health  
'Til daylight comes  
And burning wealth  
I hold my breath
