

# Futurama

## Hanoi Rocks

My little lover's gonna be another  
Copy of Raquel Welch  
I'll build her a house and a maid named Jill  
And spend tha rest of my life down in Beverly Hills I'll never have to feed her  
And she'll stay pretty all the time  
Oh, yes she will love the way she's gonna rock and roll  
From the early morning 'til late at night  
Non stop rock 'n' bop and she'll never ever die When I want money she can go to work  
As a roadie for Adam Ant  
And if he comes on strong he'll in for a shock  
'Cos she'll open his face and clean his clock I'll never have to feed her  
And she'll stay pretty all the time  
Oh yeah I love the way she's gonna rock and roll  
From the early morning 'til late at night  
Non stop rock 'n' bop and she'll never ever die  
Rock 'n' roll My little girl, the best in the world  
Softer than steel, she's alarmingly real  
My mechanical girl, my satanical pearl  
You're the best in the world  
Wild thing, I think I love you My little lover's gonna be another  
Copy of Raquel Welch  
I'll build her a house and a maid named Jill  
And spend tha rest of my life down in Beverly Hills I'll never have to clean her  
And she'll stay pretty all the time  
Oh yeah I love the way she's gonna rock and roll  
From the early morning 'til late at night  
Non stop rock 'n' bop and she'll never ever die
